Art Unit: 3651

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Carter (U.S. Patent 2,228,946).

Carter shows a livestock chute, which attaches to the rear of a trailer 8 having an upper chute section 32, and a lower chute section 14.

Re claim 12, the chute attaches along a plurality of hinges 33.

Claims 11 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-9 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Breslin et al. disclose a truck with a roll-up door and a ramp attached to its rear.
